UPGRADE YOUR OLD APPLIANCES FOR MORE REBATES AND SAVINGS

If your appliances are more than 15 years old, you can upgrade and save. It's a win-win for you – buy the latest technology for less while enjoying greater comfort and lower electricity costs in the future.

ENJOY MORE REBATES AND SAVINGS WITH THE LATEST ENERGY STAR APPLIANCES

Upgrade to Energy Star appliances that consume less energy thanks to improved design and advanced technologies:

Lower utility bills

Improved performance

Superior design & technology

| APPLIANCE | REBATE | AVERAGE ELECTRICITY SAVINGS vs. OLD MODEL |
|----------------|-------------|---|
| Fridge | \$75 | 50% |
| Freezer | \$75 | 60% |
| Clothes Washer | \$75 | 40% |
| Dehumidifier | \$30 | 60% |
| Window A/C | \$25 | 35% |

TURN UP THE SAVINGS WITH A SMART THERMOSTAT

You can also save by installing a 'Smart' thermostat that uses sensors and Wi-Fi to let you remotely control the comfort level of your home. **Ask your energy advisor if a smart thermostat rebate is available in your area.**

LIFE HACKS: ENERGY SAVERS

Save even more at home simply by changing up your everyday routine. **Start small and watch your savings add up over time.**

Set your thermostat to 25°C when home in summer and 20°C in winter.

Turn off your powerbar or unplug computers, computer peripherals, kitchen appliances and phone chargers when not in use.

Turn the 'heated dry' setting on your dishwasher off and let the dishes air-dry.

Wait until off-peak hours to do laundry or run your dishwasher. Use cold water and save even more!

Switch out old light bulbs or pot lights for new LED lights. (Visit saveonenergy.ca for product discounts)

COOL REBATES UP TO \$400

Get rebates to upgrade your central air conditioning to an **Energy Star** certified central A/C.
